

# OdooPBX

AI Phone Sales Assistant

# Boost your sales with AI Assistant

## Automate after-call work

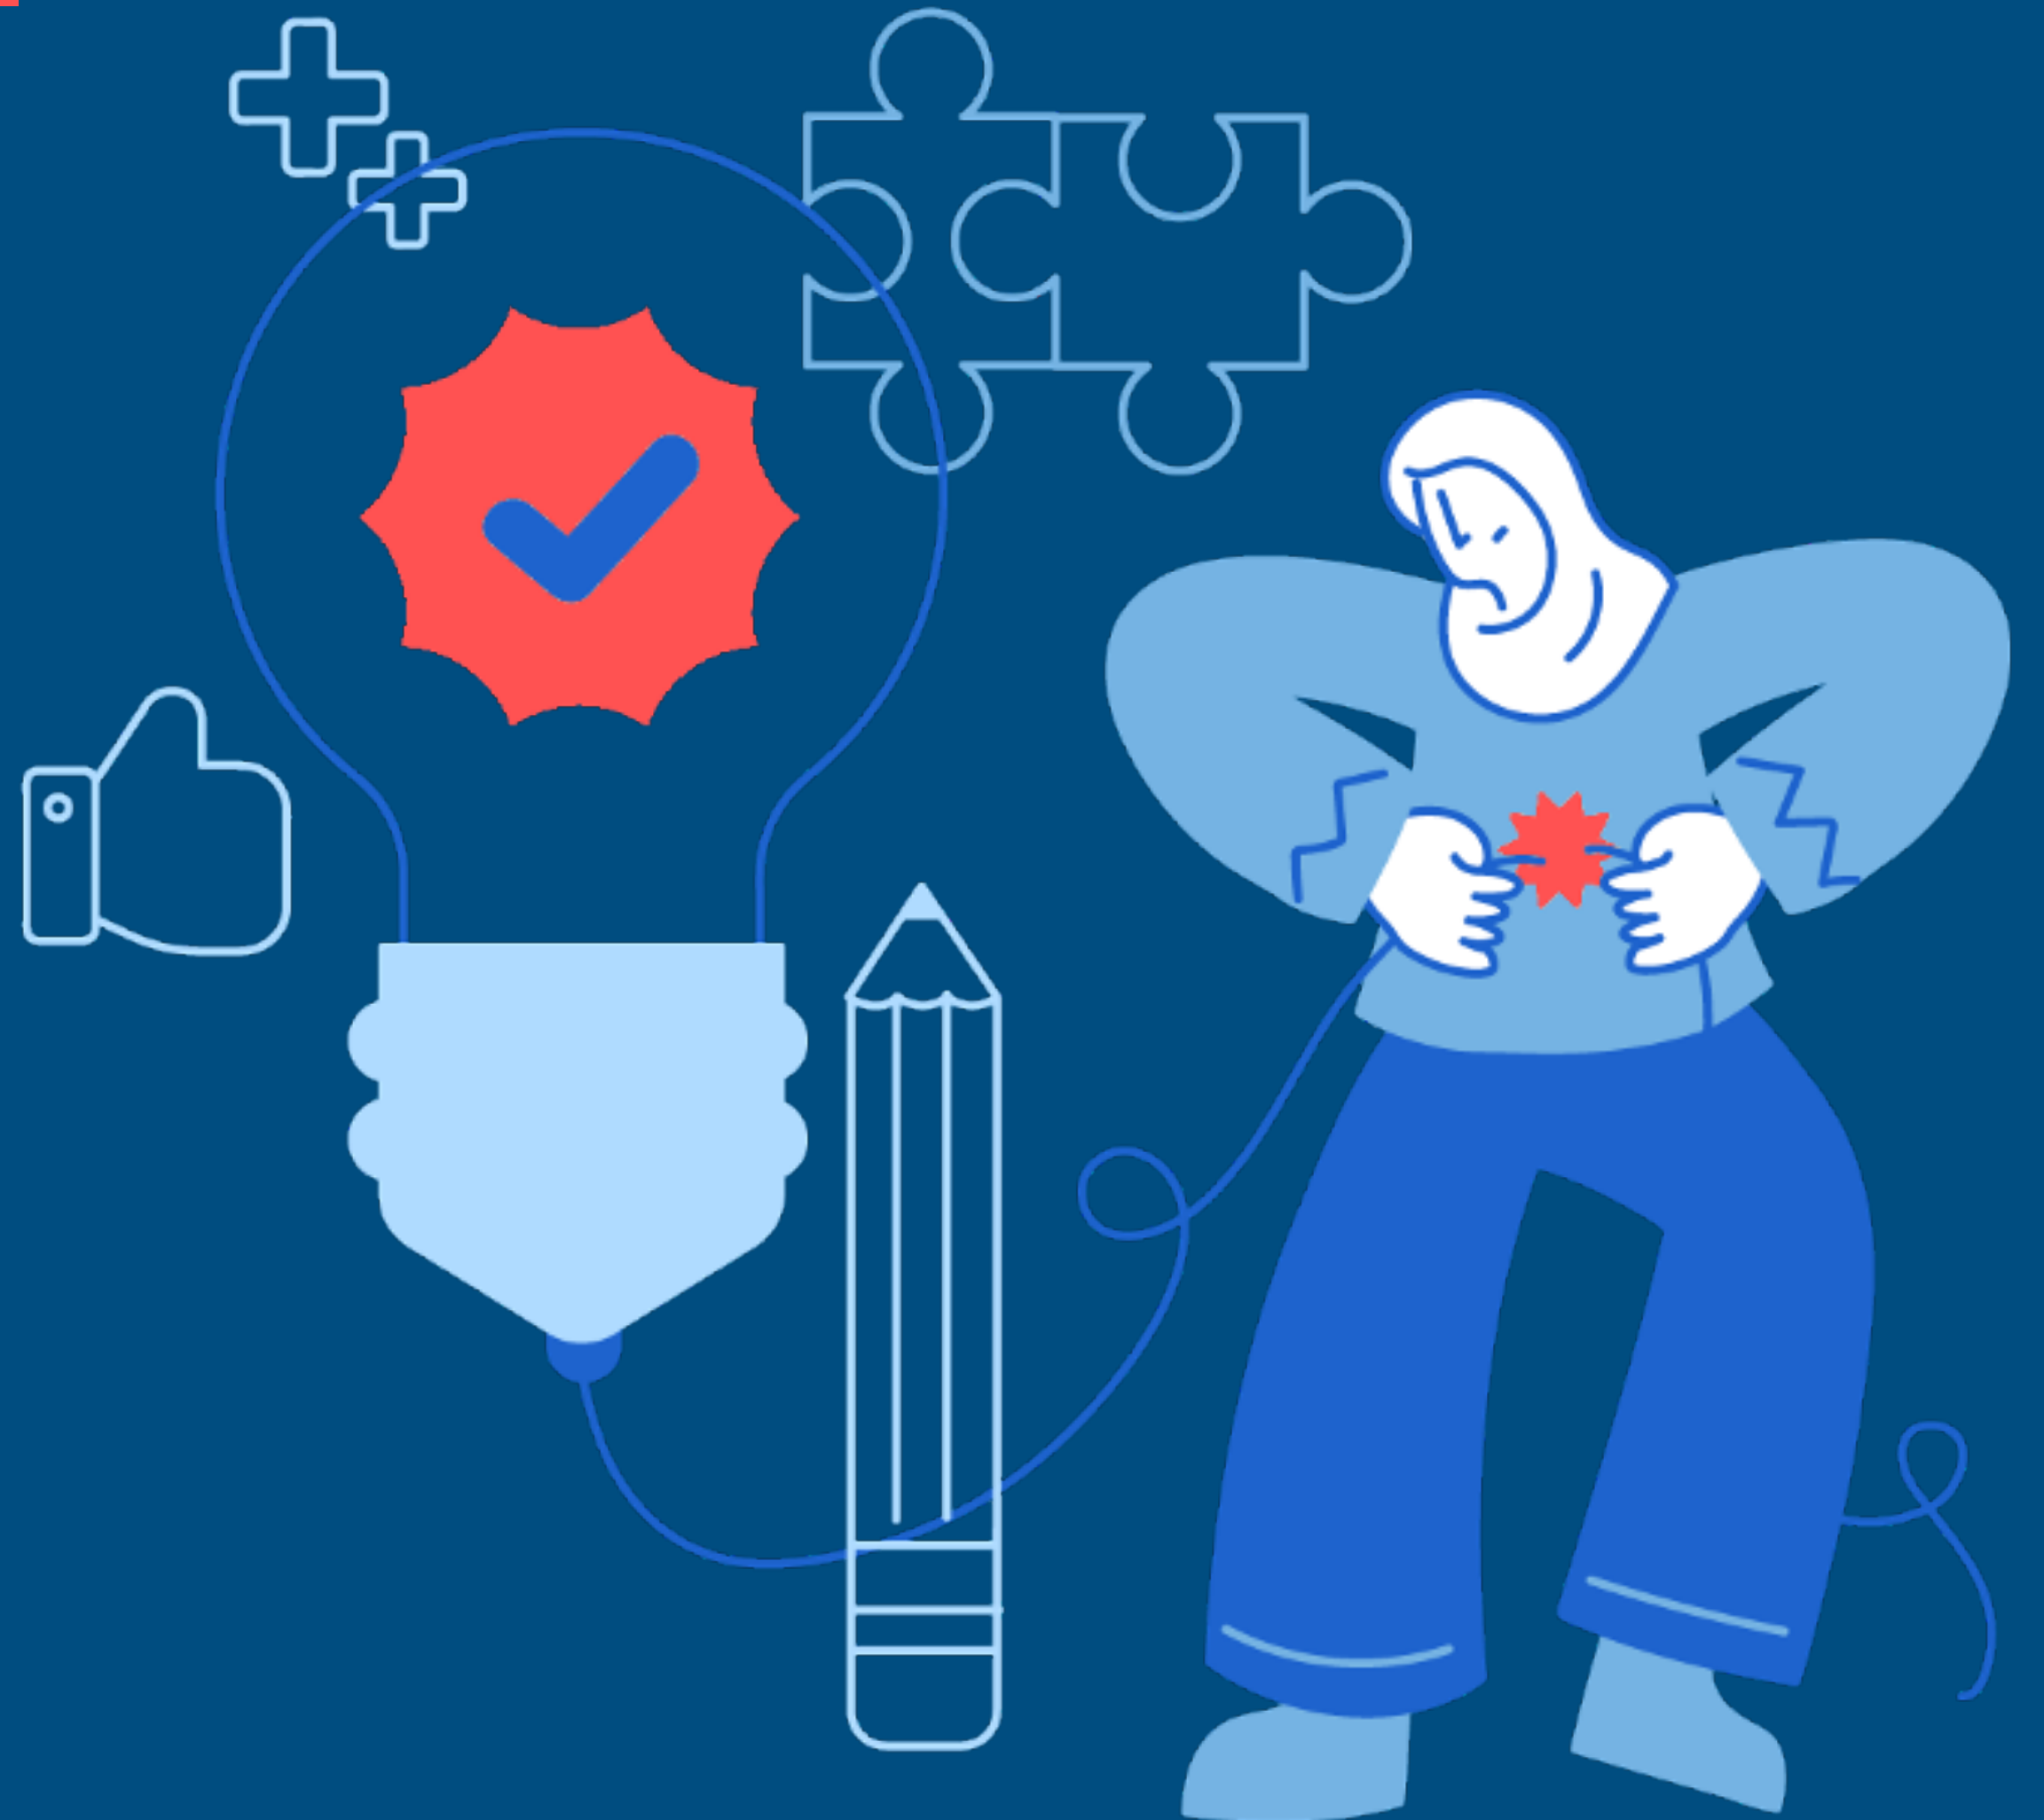

Save minimum 60 seconds on each call and share call summary with partner.

## Auto detect customer pain

AI will analyze sales calls, highlight typical problems and report using a new call summary view dashboard.

## Let AI extract data from sales calls

Transform your calls database into tomorrow's solutions.

# PBX / Call Centre

## Asterisk PBX connector

Supported systems: FreePBX, VitalPBX, IsabelPBX, Yeastar PBX.

## Full Odoo integration

Click to call from contacts, leads, tickets, sale orders, etc.

Link calls with contacts, leads, tickets, etc.

## Analyze your sales calls

Use your recorded calls database to find new sales opportunities.

# Odoo Phone

## WebRTC SIP Phone

Supported systems: FreePBX, VitalPBX, IsabelPBX, Yeastar PBX.

## Multi tab ready

Pick the call in any Odoo tab, hangup in any Odoo tab, transfer in any Odoo tab.

## Zero effort SIP users setup

SIP users are created automatically when Odoo users in PBX user group are added.

The screenshot displays the Odoo Phone interface. At the top, there's a 'Pipeline' section with 'Create' and 'Generate Leads' buttons. Below this, a 'New' stage is shown with a '+', and a 'Qualified' stage is shown with a '+'. A progress bar indicates a value of 51,300€. The interface is divided into two main sections: a contact list on the left and a lead details view on the right. The contact list includes 'PBX Admin' (101), 'Mitchell Admin' (103), and another 'Mitchell Admin' (+1555555555). The lead details view shows 'Global Solutions: Furnitures' (3,800.00 €), 'Quote for 600 Chairs' (22,500.00 €), and 'Info about services' (25,000.00 €). Each lead entry includes a product name, a star rating, and a clock icon.

# Auto dialer

## Mass calling

Call on list of leads or contacts automatically.

## Play custom messages

Inform your customers on unpaid invoices, delivery notifications, address change, etc.

## Offer and sale

Play a voice message with product or service offer and connect instantly to your sale agent to close the deal.

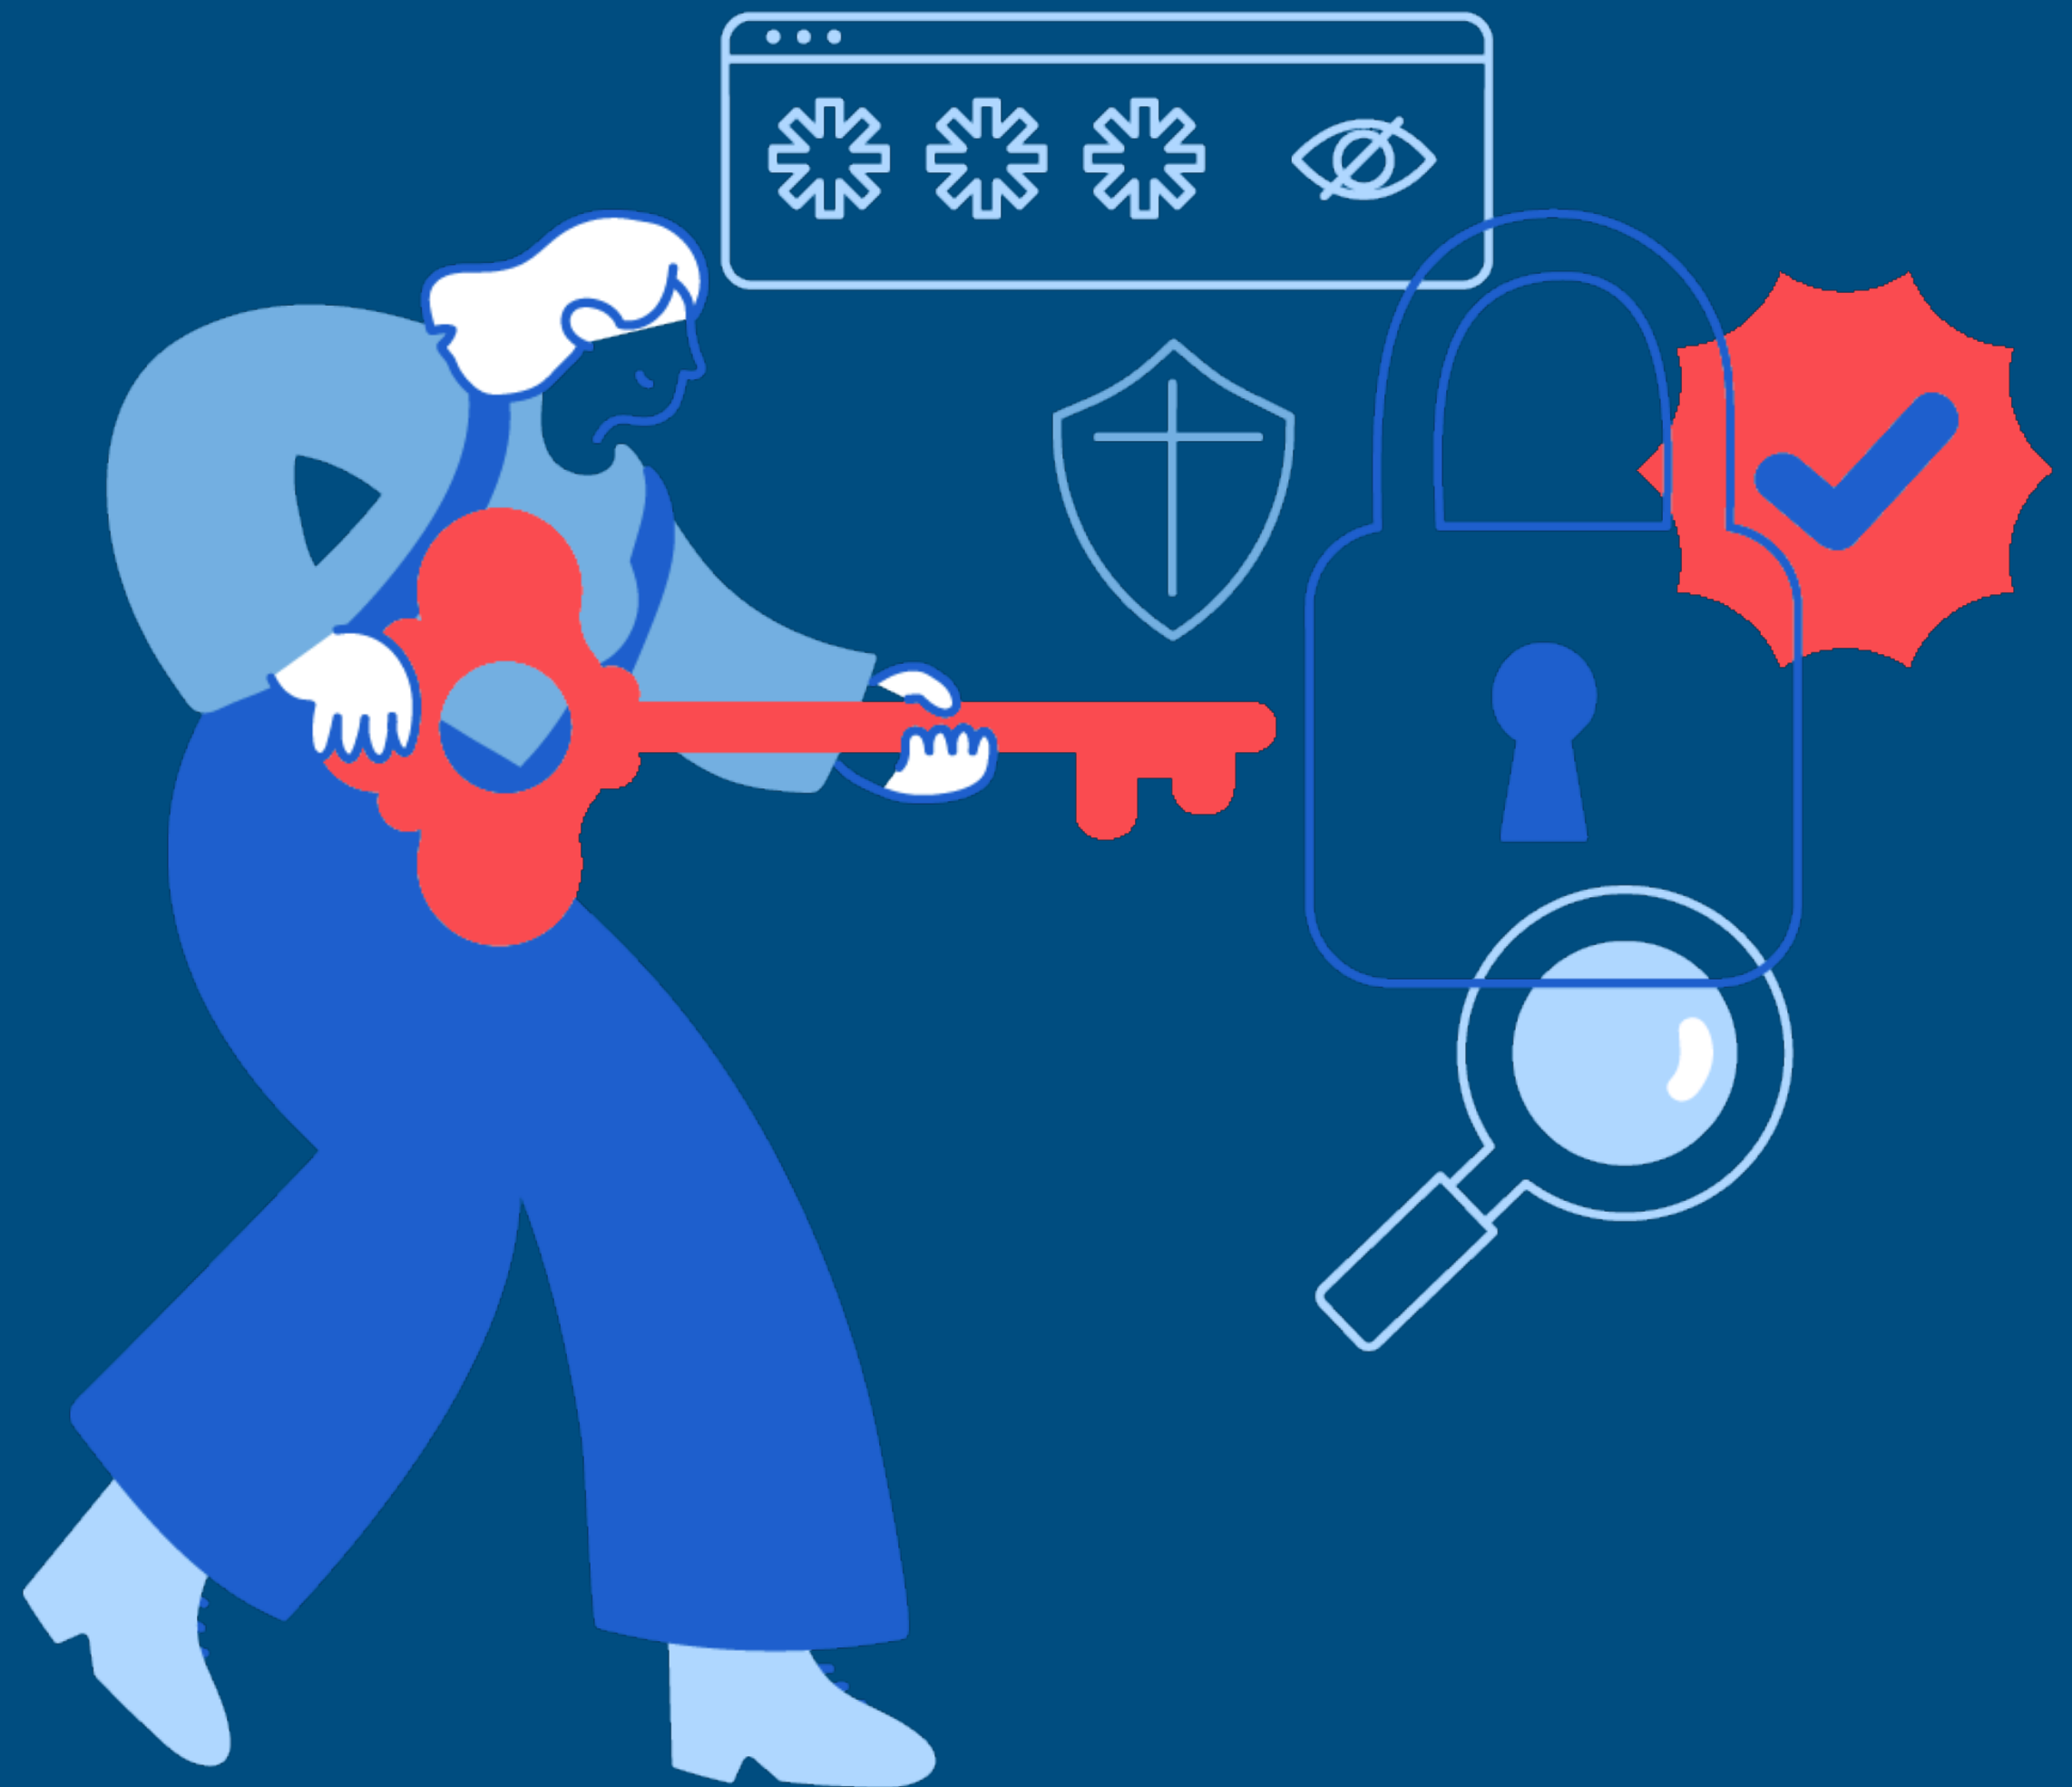

# How it works

## The Agent middleware

A special middleware Agent is deployed that connects Odoo and Asterisk.

## Agent features

- Sends required Asterisk AMI events and call recordings to Odoo.
- Receives Asterisk AMI Actions from Odoo and sends them to Asterisk.
- Implements billing function.
- Agent is deployed in a docker container on the Asterisk host or near it.

# Support

## Helpdesk

# Pricing

## Monthly subscription

9 EUR / user for all Asterisk Plus apps:  
<https://odoopbx.com/pricing>

## Yearly discount

Get 2 months free.

## Lifetime license

Buy all Asterisk Plus modules with a one-time purchase!

# FAQ

## Which Odoo versions are supported?

We maintain versions 11.0 - 17.0, and both Odoo CE & EE & Odoo.sh

## Does subscription include call minutes?

No, OdooPBX is not a phone service. You must have your own Asterisk PBX server deployed.

## Which Asterisk versions are supported?

Any Asterisk version. Even some proprietary products like Yeastar PBX, Grandstream PBX and more.

## How do I subscribe?

The subscription is managed directly from the Asterisk Plus app: PBX -> Settings -> General [Billing] tab.

## Where are call recordings stored?

Call recordings can be stored in Odoo database, Odoo filestore, Asterisk server, S3 storage or HTTP URL.

# Welcome Odoo to the OdooPBX platform
